

Safety Flash

September 2, 2021

In the wake of the extreme weather conditions and flooding across the state of Pennsylvania please take the necessary precautions to make sure that you are taking care of yourself and your families. Your personal safety is priority #1, above all else. Be mindful that storm restoration plant conditions pose many unseen threats in terms of electrical hazards, unsafe road conditions, building issues and many other unsafe plant conditions. Be sure to use all protective PPE and when in doubt *STOP* work and report a condition as unsafe. “No Job is so important that we cannot take the time to perform our work safely.”

If there are any problems where you work, please do not hesitate to contact the Local Officers, Unit Presidents, Union Representatives or our Local 13000 Safety Committee.

Our Local 13000 Safety committee consists of:

Executive VP Jeff Reamer

Unit 23 President Bill Scott- Eastern Region Representative

Unit 54 President Scott Efferin- Western Region Representative

In Unity,

CWA Local 13000 Executive Board
